Myers-Briggs Survey Results

This is not scientific, but the responses to the Myers-Briggs test from the last issue were all over the board. There were twenty-nine respondents, who identified themselves as:

Extraverts—9

Introverts—20

Intuitive—18

Sensing—10

Thinking—12

Feeling—17

Judging—10

Perceiving—19

The combination that had the most entries was INFP (6). Next were INFJ and INTP (4); and ISFP (3). There were two ENFPs, ESTJs, and ESTPs. Anyone care to offer a non-scientific interpretation? [Editor](#).
